

Mosquito-Eating Machines

Mosquitoes have a place in the food chain, but not on your skin. Bats and birds are mosquito patrols, too. Build a bat house and you'll have fewer mosquitoes!

Try This!

Build a Bat House!

- *Woodworking for Wildlife* by Carroll Henderson has a bat house plan. You can build it from one piece of lumber for \$5.00.

For more, see

- <http://www.batcon.org/bhra/bhcritter.html>

Enter at the bottom!

- I'm super clean and gentle.
- If I swoop and zigzag overhead, I am simply catching insects using echolocation.

Echolocation is a bat's way to navigate using echoes of its own signals.

What does one big brown bat eat each night? Use the clues to find out!

A bat eats between _(A) and _(B) mosquitoes and other insects each night.

Clues

How many years in a century?

Add a zero.

Multiply times 3. _(A)

How many pennies in a dollar?

Multiply times the number of days in a week.

Add one more zero. _(B)
